

WHAT IS BOYS STATE?

In the words of founder Hayes Kennedy, “Boys State has been developed on the fundamental assumption that youth can best “learn to do by doing.”

Illinois Boys State is a unique lifetime experience. It is an opportunity for young men from all across the state to meet in a college campus environment. For most, it is the first time that young men from the city and suburbs meet young men from farms and rural areas of the state. They share a common goal: create a mythical 51st state government, complete with governmental bodies and elected public officials.

The program is designed to mirror the structure of Illinois local, county and state governments, while providing training in citizenship, leadership, and character development.

“Citizens” are assigned to a mythical political party which results in involvement at the city, county, judicial circuit, and legislative district as well as at the state level of government. The government organization provides for elections at all levels and includes party caucuses and conventions, platform development, and the organizing and operation of local government units such as the city council and county board of supervisors.

“Every attendee of Boys State will assuredly leave with a renewed sense of both individuality and teamwork. Boys State surrounds all of its participants with the best that Illinois has to offer in young, brilliant minds. The knowledge gained here and the connections made here will last a lifetime.”

Trevor Matusik – 2013 Lt. Governor – Lake Villa, IL
